# ABOUT US

Steele Clean has been serving the Wirral and Northwest area with all types of Domestic and Commercial cleaning for over 4 years including window cleaning, pressure washing driveways, from your standard house to nursing homes we offer the right solution for you.

Our window cleaning system, with a 45ft -75ft pole fed allows us to get to places your standard window cleaners could not. We can clean windows above conservatories and extensions.

Not only do we offer the latest Brodex technology window cleaning system, but are also fully equipped with high-pressure jet wash apparatus and gutter vacuum with full camera system built in.

Our aim at Steele Clean is to forge a good working relationship with our clients and we pride ourselves on providing the highest service for our clients Please find a list of service we offer:

- Window Cleaning
- Pressure Washing
- Conservatory Cleaning
- Caravan Cleaning
- Gutter Cleaning
- Solar Panel Cleaning
- Roof Cleaning
- Moss Removal
- Carpet Cleaning
- Commercial Cleaning
- Domestic Cleaning
- Forecourt Cleaning

# WINDOW CLEANING

With our wealth of knowledge, experience, up to the minute training and specialist pole fed window cleaning equipment, Steele Clean can ensure your window needs are met with impressive results. We use the latest ironized water system, which is one of the most modern innovations in the window cleaning industry with no detergents.

This eliminates residue. Everyone who experiences it is always impressed with the results of our window cleaning.

Property owners enjoy the fact that this is an environmentally friendly window cleaning method and that it solves most high reach cleaning issues. Pole fed systems can reach up to a height of 75 feet and the method is very cost effective.

Our window cleaning system provides the ideal solution, especially if you are looking for a window cleaning method that does not damage buildings and is kind to the environment

Our Wirral and Northwest customers tend to recommend us and re-book us time and time again.

See our client testimonials on our website. Personal Service Guaranteed.

# PRESSURE WASHING

## **Pressure washing**

We provide high power pressure washing and jet washing services in the Wirral & Northwest for cleaning external hard surfaces such as driveways, patios, block paving and decking. Our powerful pressure cleaning equipment is a highly effective method of cleaning outdoor areas and removing dirt, weeds and other staining.

## **Driveway Cleaning**

The appearance of your driveway or patio, would be transformed using our powerful jet washers that are suitable for cleaning all types of building materials including block paving, concrete, limestone, Indian sandstone and paving slabs.

We clean driveways, patios and block paving restoring them to their original condition. A newly cleaned driveway or patio greatly enhances the attractiveness of your home and garden.

We can also pressure clean other outdoor surfaces such as paths, pavements and also pressure clean other outdoor surfaces such as decking.

## **Decking Cleaning & Staining**

We can jet wash clean dirty, faded decking to once again make your garden a place to enjoy this summer.

After cleaning your decking, we could, on your request, stain or oil it to enhance the look.

Our pressure washing service will dramatically improve the external area of any home, business or industrial area.

We will always discuss your requirements before starting cleaning.

Our other exterior services include solar panels cleaning, conservatory cleaning and gutter cleaning.

# GUTTER CLEANING

## Gutter Cleaning

Gutters easily become blocked with moss from roofs, leaves, twigs and all sorts of other debris.

Blocked guttering soon causes dirty water to overflow potentially causing damp to buildings and dirty water leaving stains on the outside of your home. Water can penetrate the roof and exterior walls, causing damage and structural problems. If the water freezes and expands the damage is even more severe.

If rainwater is allowed to build up, because of blocked gutters being under the sustained weight of the water, gutters and downpipes could collapse.

We provide affordable and effective gutter cleaning by removing all obstructions, thus ensuring gutters are free of debris allowing for free-flowing rainwater.

## Fascias, Soffits and UPVC Cleaning

Our exterior cleaning services for house and building exteriors include cleaning of fascias, soffits and cladding. Our water fed pole cleaning system, together with safe and highly effective cleaning products, allows Steele Clean to clean and restore the outside of any building.

If white UPVC is neglected, it soon begins to stain and blacken as a result of pollutants in the air. Green algae can also colonise the surface.

We can offer a service on a one-off basis or as part of an ongoing cleaning and maintenance programme.
